Profile

I'm an experienced developer with a solid academic background and some real-world experience. I'm good at breaking down tough problems and using my programming skills to solve them. I keep up with the latest tech trends and can think through complex issues logically. Now, I'm looking for a new challenge where I can work hands-on with C#, ASP .NET, and SQL Server. I want to learn more and build cool systems with a great team.

Education

Faculty of Science, Menofia University, Mathematics And Computer Science 2020 – present
El Menofia, Egypt

.Net Development (Summer Internship), Information Technology Institute (ITI) 2023 Jul – 2023 Sep
El Menofia, Egypt

Developed and maintained web application using C#,
.NET Framework, ASP.NET Web MVC.

Professional Experience

Full-stack Development using .Net (Training and Internship), 2023 Jan – 2024 Apr
CREADEV SOFT Company El Menofia, Egypt

Completed intensive full-stack .NET developer training at CREADEV SOFT, gaining comprehensive skills in HTML, CSS, JavaScript, C#, and .NET technologies. Applied knowledge to real-world projects, honing problem-solving abilities, and collaborative teamwork. Grateful for invaluable experience, ready to contribute expertise to dynamic development environments.

Skills

Backend

C# - Entity Framework Core (EF) - ASP.NET Core
MVC - ASP.NET Core Web API - SQL Server -
Solid Principles - Design Pattern - OOP

Frontend

HTML5 - CSS3 - Bootstrap5 -Tailwind - Sass -
JavaScript - Typescript - ReactJs - NextJs - Git ,
GitHub

Languages

• Arabic

• English

Certificates

- ITI Certificate Summer Training

Projects

TaskEvaluation, Developed a Task of student grade CRUD operation MVC project, employing dependency injection for efficient component management .This project I am still working on Frontend . ☑

Typing Speed Text Game, Crafted an engaging Typing Speed Test Game using HTML, CSS, and JavaScript, offering users an interactive platform to enhance their typing skills. The project features a sleek design, user-friendly interface, and real-time performance tracking, providing an immersive and educational experience for users and potential contributors alike. ☑

Safary Project Backend, The Safari platform is a freelance platform for tour guides . I leveraged AutoMapper for seamless object mapping, implemented dependency injection for efficient component management, integrated JWT token authentication for secure user access, and designed a dedicated Account Controller for user registration and login functionalities. This project I am still working on .

Safary Project Frontend, he Safari platform is a freelance platform for tour guides. This the project of frontend we use many technology like (React , TypeScript , tailwind , sass , NextJs)
